

Trailhead Supply Co. - Frequently Asked Questions

Last updated: January 2026

Orders & Tracking

How do I track my order? Use the tracking link in your shipping confirmation email, or open **Order History** in your account. Tracking becomes active once your order status changes from Processing to Shipped.

Can I change or cancel my order? You can cancel or edit an order while it is still in **Processing** (usually the first 1-2 business days). Once it ships, we can't change it - but you can use our 30-day return policy.

My tracking hasn't updated in several days. What should I do? If there's no movement for more than 5 business days, contact support@trailheadsupply.example and we'll open a carrier investigation.

Payments

What payment methods do you accept? All major credit and debit cards, plus Apple Pay and Google Pay at checkout.

When am I charged? Your card is authorized at checkout and charged when the order ships.

Sizing & Products

How do I choose the right size? Each product page includes a sizing chart. For footwear and apparel, we recommend measuring and comparing to the chart rather than relying on your usual size.

Do you price match? Yes. If you find a lower advertised price on the same item at an authorized retailer within **14 days** of your purchase, contact us and we'll refund the difference.

Trail Club Membership

What is Trail Club? Trail Club is our **free** loyalty program. Members get free Standard shipping on every order, an extended 60-day return window, and early access to seasonal sales.

How do I join? Create an account and opt in - there's no fee. Make sure you're signed in at checkout to receive member benefits.

Returns & Warranty

What's your return window? 30 days from delivery for unused items (60 days for Trail Club members). Final Sale items are not returnable. See our Return Policy for details.

Something I bought is defective. What now? Manufacturing defects are covered by the Trailhead Guarantee for 1 year (2 years on tents and backpacks) - see our Warranty Policy. This is separate from the return window.
